BABY CLOSET DIVIDERS

Step 1: Download the file within the membership and print out all of the hangers onto white card. You'll notice that some pages are duplicated, these are simply mirror images of the hangers so that they can be stuck together and become double sided.

Step 2: Cut out all of the hangers carefully.

Step 3: Find two matching hangers and simply glue them back to back, making sure to line them up correctly.

Step 4: Repeat on all of the hangers and voila!

Step 5. Hang them up in your baby's closet rails and admire how darn good they look!
